## EXPLANATORY REMARKS.

The above duties include the surtax of 10 p. cent; the Custom-house admits the real Tare whenever the importer desires it.

(Note A.) The treaties of commerce entered into with the countries hereinafter mentioned introduce the following deviation from the above rates of duty.

United States. The produce of the U.S., except that

of the fisheries, direct from the U.S. in U.S. vessels pays the same duty as if imported by French vessels from the United States.

Brazils & Mexico. The produce of the Brazils and Mexico imported direct in national vessels enjoys also the above privilege.

England. The produce of Africa, Asia or America, imported from any country whatever in British ves-

sels or from any port of the British dominions in Europe either by French or foreign vessels, can only be admitted in bond for re-exportation.

The same regulation is applicable to all European produce (except that of Great Britain & its colonies, in Europe) when imported by British vessels from other ports than those of Great Britain or its possessions in Europe.

The weight of 30 k. is equal to 110 lb./f. English or 100 lb. English are equal to 43,53/100 k. & the Cwt equal to 50,70/100 k.

Credit. 1 1/2 months except on Caffier, Cocon, Pimento, Pepper, Quick-Silver, & milled S. Cigars, which are sold at 3 1/2 months, & Wheat at 2 1/2 d.
